Continuous Noise Monitoring Data ACL3 (City Hall)

Table with 12 columns representing time slots (e.g., 11/12/14 0:06) and noise levels (e.g., 56.8). The data is organized into four groups of three columns each, covering the period from 11/12/14 0:06 to 12/12/14 1:06.

Continuous Noise Monitoring Data

Graphic Presentation of Continuous Noise Monitoring Result (ACL3-City Hall)

After checking with Contractor of HK/2012/08, diaphragm wall construction and socket H-piling were conducted on 8, 20, 23, 27, 29, 30 and 31 December 2014 while chilling plant maintenance and upgrading works (with use of circular steel cutter) was observed on-going at City Hall roof top location adjacent to the noise monitoring station in the reporting month. In view of the above, the exceedances were considered as non-projected and contributed by the maintenance works by City Hall
