

Ref. No.	Date	Time	Location	Measured TSP Level	Unit	Action Level	Limit Level	Follow-up action	
X_16A007	14-Sep-16	9:10	CMA5b- Pedestrian Plaza	379.4	1 hr TSP (ug/m ³)	332.0	500	Possible reason:	Elevated TSP level potentially in relate to other sources affecting local ambient condition such as road traffic next to the monitoring station
								Action taken / to be taken:	Reviewed the trend of air quality measurement across monitoring stations. Analysis of contractor's working procedures. Mitigation measures including maintaining haul road in dampened condition was implemented by contractor.
								Remarks / Other Obs:	Despite formwork erection was undertaken on the monitoring date at around Pedestrian Plaza under Contractor of HK/2012/08, dust suppression measure including haul road maintained in dampened condition were implemented and no particular observation regarding air quality impact was observed during sampling. In view of the above, the action level exceedance was considered to be non-project related and potentially contributed by other sources affecting local ambient condition such as road traffic next to the monitoring station. In addition, non WDII-CWB Project construction activities opposite to the monitoring station was observed on the monitoring date. Nevertheless, the Contractor of HK/2012/08 was reminded to maintain regularly dust suppression measures for any potential dusty surface and dust generating operation around the concerned location to avoid any potential cumulative air quality impact.
X_16A008	14-Sep-16	9:10	CMA5b- Pedestrian Plaza	379.4	1 hr TSP (ug/m ³)	332.0	500	Possible reason: Action taken / to be taken:	Elevated TSP level potentially in relate to other sources affecting local ambient condition such as road traffic next to the monitoring station Reviewed the trend of air quality measurement across monitoring stations. Analysis of contractor's
								Remarks / Other Obs:	working procedures. Pipe laying was undertaken on the monitoring date around Pedestrian Plaza under Contract HK/2009/01 and no particular observation regarding air quality impact was observed during sampling. In view of the above, the action level exceedance was considered to be non-project related and potentially contributed by other sources affecting local ambient condition such as road traffic next to the monitoring station. In addition, non WDII-CWB Project construction activities opposite to the monitoring station in addition, non WDII-CWB Project construction activities opposite to the monitoring station in addition, non weak the weight of the source of HK/2009/01 was reminded to maintain regular dust suppression measures for any potential dusty surface and dust generating operation around the concerned location to avoid any potential cumulative air quality impact.
X_16A010	26-Sep-16	9:10	CMA5b- Pedestrian Plaza	385	1 hr TSP (ug/m ³)	332.0		Possible reason: Action taken / to be taken: Remarks / Other Obs:	Elevated TSP level potentially in relate to other sources affecting local ambient condition such as road traffic next to the monitoring station Reviewed the trend of air quality measurement across monitoring stations. Reviewed Contractor's working procedures. Mitigation measures including maintaining haul road in dampened condition was implemented by Contractor. Despite formwork erection and re-bar fixing were undertaken on the monitoring date at around Pedestrian Plaza under Contractor of HK/2012/08, dust suppression measure including haul road maintained in dampened condition were implemented and no particular observation regarding air quality impact was observed during sampling. In view of the above, the action level exceedance was considered to be non-project related and potentially contributed by other sources affecting local ambient condition such as road traffic next to the monitoring station. According to the EPD information, smog was observed on the monitoring date and the prevailing meteorological condition on the monitoring date is detrimental to dispersion of any potential roadside pollutant. In addition, non WDII- CWB Project construction activities opposite to the monitoring station was observed on the monitoring date. Nevertheless, the Contractor of HK/2012/08 was reminded to maintain regularly dust suppression measures for any potential dusty surface and dust generating operation around the concerned location to avoid any potential cumulative air quality impact.
X_16A011	26-Sep-16	9:10	CMA5b- Pedestrian Plaza	385	1 hr TSP (ug/m³)	332.0		Possible reason: Action taken / to be taken: Remarks / Other Obs:	Elevated TSP level potentially in relate to other sources affecting local ambient condition such as road traffic next to the monitoring station Reviewed the trend of air quality measurement across monitoring stations. Reviewed contractor's working procedures. Manhole construction was undertaken on the monitoring date around Pedestrian Plaza under Contract HK/2009/01 and no particular observation regarding air quality impact was observed during sampling. In view of the above, the action level exceedance was considered to be non-project related and potentially contributed by other sources affecting local ambient condition such as road traffic next to the monitoring station. According to the EPD information, smog was observed on the monitoring date and the prevailing meteorological condition on the monitoring date is detrimental to dispersion of any potential roadside pollutant. In addition, on WDII-CWB Project construction activities opposite to the monitoring station was observed on the monitoring date. Nevertheless, the Contractor of HK/2009/01 was reminded to maintain regular dust suppression measures for any potential dusty surface and dust generating operation around the concerned location to avoid any potential cumulative air quality impact.

Ref. No.	Date	Time	Location	Construction Noise Level, dB(A)	Parameter	Action Level	Limit Level dB(A)	Follow-up action	
X_16N053	11-Oct-16	10:30	M1a-Harbour Road Sports Centre	80	Leq(30min)	when one documented complaint was received.	75	Possible reason:	Operation of generator and air compressors opposite to the monitoring statoin was observed as the major noise contribution under non WDII-CWB Contractor.
								Action taken / to be taken:	A repeat measurement was conducted to confirm result and reviewed the trend of previous noise monitoring and Contractor's working procedure.
								Remarks / Other Obs:	Demolition of Ex-WanChai WSD Pumping Station by hydraudlic grab and excavation at Portion 5 were conducted under Contract HIV/2009/02 around the concerned location during the time of measurement. No major noise was observed from the above construction activities while operation of generator and air compressors opposite to the monitoring station under non WDII-CWB Contractor was observed as the major noise contribution during monitoring. As such, the exceedance was considered as non-Project related.
X_16N054	11-Oct-16	10:30	M1a-Harbour Road Sports Centre	80	Leq(30min)	when one documented complaint was received.	75	Possible reason:	Operation of generator and air compressors opposite to the monitoring statoin was observed as the major noise contribution under non WDII-CWB Contractor.
								Action taken / to be taken:	A repeat measurement was conducted to confirm result and reviewed the trend of previous noise monitoring and Contractor's working procedure.
								Remarks / Other Obs:	monitoring and contractor's working proceedure. Defect rectification working working proceedure. time of measurement while operation of generator and air compressors opposite to monitoring station under non WDII-CWB Contractor was observed as the major noise contribution during monitoring. As such, the exceedance was considered as non-Project related.
X_16N056	19-Oct-16	13:30	M1a-Harbour Road Sports Centre	81	Leq(30min)	when one documented complaint was received.	75	Possible reason:	Operation of generator and air compressors opposite to the monitoring statoin was observed as the major noise contribution under non WDII-CWB Contractor.
						received.		Action taken / to be taken:	A repeat measurement was conducted to confirm result and reviewed the trend of previous noise monitoring and Contractor's working procedure.
								Remarks / Other Obs:	Demolitoring and Contractor's working proceedure. Demolitoring of Ex-WanChai WSD Pumping Station and excavation at Portion 5 were conducted under Contract HK/2009/02 around the concerned location during the time of measurement. No major noise was observed from the above construction activities while operation of generator and air compressors opposite to the monitoring station under non WDII-CWB Contractor was observed as the major noise contribution during monitoring. As such, the exceedance was considered as non-Project related.
X_16N057	19-Oct-16	13:30	M1a-Harbour Road Sports Centre	81	Leq(30min)	when one documented complaint was received.	75	Possible reason:	Operation of generator and air compressors opposite to the monitoring statoin was observed as the major noise contribution under non WDII-CWB Contractor.
								Action taken / to be taken:	A repeat measurement was conducted to confirm result and reviewed the trend of previous noise monitoring and Contractor's working procedure.
								Remarks / Other Obs:	Defect rectification works within tunnel structure was conducted under Contract HK/2009/01 during the time of measurement while operation of generator and air compressors opposite to monitoring station under non WDII-CWB Contractor was observed as the major noise contribution during monitoring. As such, the exceedance was considered as non-Project related.
