China State – Build King Joint Venture

7 January 2020

29/F, China Overseas Buildings, 139 Hennessey Road, Wan Chai, Hong Kong

Attn: Site Agent, Mr. George Cheung

(By Post and Fax: 2140-6799)

Dear Mr. Cheung,

:

:

Contract No. HK/2012/08 Wan Chai Development Phase II – Central – Wan Chai Bypass at Wan Chai West – Tunnel Works

Final Landscape Plan (Rev. 1)

Referring to the captioned submission received through email on 4 January 2020, we have reviewed your submitted details and hereby certified this submission in accordance with Condition 2.10 of FEP-02/376/2009.

Should you have any enquiry, please feel free to contact the undersigned at 2839 5666.

Yours faithfully,

Raymond Dai Environmental Team Leader

Attention: Mr. George Cheung

Dear Sir,

Re: Contract No. HK/2012/08 Wan Chai Development Phase II – Central-Wan Chai Bypass at Wan Chai West

Final Landscape Plan (Rev. 1)

Reference is made to your submission of the Final Landscape Plan (Rev. 1 dated 6 January 2020) to us through e-mail on 6 January 2020 for our review and comment.

Please be informed that we have no adverse comment on the captioned submission. We write to verify the captioned submission in accordance with Condition 2.10 of FEP-02/376/2009.

Please feel free to contact the undersigned should you have any queries.

Yours faithfully,

David Yeung Independent Environmental Checker

1 Introduction

Wan Chai Development Phase II – Central – Wan Chai Bypass at Wan Chai West (Contract No. HK/2012/08) is part of the Central - Wan Chai Bypass (CWB) including Road P2 and other roads which are classified as primary/district distributor roads covered under the Environmental Permit No. EP-376/2009.

China State – Leader Joint Venture was granted on 31 March 2015 a Further Environmental Permit (No. FEP-01/376/2009) for the Contract No. HK/2012/08 under the master Environmental Permit. A Further Environmental Permit (No. FEP-02/376/2009) for the Contract No. HK/2012/08 under the master Environmental Permit was granted to China State – Build King Joint Venture (CSBKJV) on 1 August 2016 upon change of company name from China State – Leader Joint Venture.

The scope of works for Contract No. HK/2012/08 under the FEP-02/376/2009 mainly includes:

- (i) a dual 2-lane primary distributor road, Road P2; and
- (ii) other new primary and district distributor roads connecting to the slip roads of the Central-Wan Chai Bypass.

The works area under FEP-02/376/2009 is shown in Appendix I.

Under Condition 2.10 of Part C of the FEP-02/376/2009, a landscape plan has to be prepared and deposited by the permit holder to the EPD at least one month before the commencement of corresponding parts of construction landscape works of the Project.

The purpose of this Landscape Plan is to demonstrate the design details, locations, implementation programme, maintenance and management schedules, and drawings of the landscape and visual mitigation measures of the Project so as to reduce the landscape and visual impact during construction stage of the Project.

CITIC Tower (C14), Fleet Arcade (C15), Grand Hyatt Hotel (C22) and Hong Kong Convention and Exhibition Centre (C24) are identified to be the key Visual Sensitive receivers (VSRs) that will be affected during the construction

phase of the Project. C14, C15, C22 and C24 are mapped in Appendix II.

CSBKJV is responsible for implementing a series of "Construction Phase Landscape and Visual Mitigation Measures" as stipulated in the approved Environmental Impact Assessment (EIA) Report for Wan Chai Development Phase II and Central-Wan Chai Bypass (Register No.: AEIAR-125/2008) and the approved CRIII EIA Report (Register No.: AEIAR-040/2001).

The requirements on landscape and visual mitigation measures during construction under the EIA reports are summarized as below:

Landscape and Visual Mitigation	Requirements in EIA	Corresponding			
Measures	Report	Sections in This			
	AEIAR-125/2008	Landscape Plan			
Top soil, where identified,	Table 10.5 CM1	2			
should be stripped and stored for					
re-use in the construction of the					
soft landscape works, where					
practical.					
Existing trees to be retained on	Table 10.5 CM2	2			
site should be carefully protected					
during construction.					
Trees unavoidably affected by	Table 10.5 CM3	2			
the works should be transplanted					
where practical.					
Compensatory tree planting	Table 10.5 CM4	2			
should be provided to					
compensate for felled trees					
Erection of decorative screen	Table 10.5 CM6	3			
hoarding compatible with the					
surrounding setting.					
Control of night-time lighting.	Table 10.5 CM5	4			

The requirements on landscape and visual mitigation measures during operation phase under the approved Environmental Impact Assessment (EIA) Report for

Wan Chai Development Phase II and Central-Wan Chai Bypass (Register No.: AEIAR-125/2008) are summarized as below:

ID No.	Landscape and Visual Mitigation Measures
OM1	Aesthetic design of buildings and road-related structures, including viaducts, vent buildings, subways, footbridges and noise barriers and enclosure.
OM2	Shrub and Climbing Plants to soften proposed structures.
OM3	Buffer Tree and Shrub Planting to screen proposed roads and associated structures.
OM4	Aesthetic design of proposed waterfront promenade.
OM5	Aesthetic streetscape design.
OM6	Aesthetic design of roadside amenity areas.

OM2 (Shrub only), OM3, OM5 and OM6 are relevant to Contract No. HK/2012/08. The tree and shrub planting plans, the tree assessment schedule for transplanted trees to EP-376 area under Contract No. HK/2009/02 and the tree schedule for felled trees at tree nursery are shown in Appendix III.

2 Landscape Works

The landscape works regarding tree planting are implemented under FEP-02/376/2009. The tree planting works are implemented according to the drawing in Appendix III and the landscape photos are shown in Appendix III.

Below is the Table which shows the latest tree status:

Description	No. of trees
Total number of transplanted trees to tree nursery site under	35
FEP-12/364/2009/D by Contract No. HK/2012/08	
Number of transplanted trees to EP-376 Area by Contract No.	0
HK/2012/08	
Number of transplanted trees to the Cross Harbour Tunnel	25
Approach Rest Garden at Gloucester Road by Contract No.	
HK/2012/08	
Number of felled trees at tree nursery site of Contract No.	10
HK/2012/08	
Number of compensatory trees to EP-376 Area under Contract	10
No. HK/2012/08	
Number of transplanted trees to EP-376 Area under Contract	57
No. HK/2009/02	
Number of compensatory trees to EP-376 Area under Contract	41
No. HK/2009/02	

Remark: The details of transplanted trees to other location by Contract No. HK/2012/08 shall refer to the Final Landscape Plan for FEP-12/364/2009/D.

3 Erection of Decorative Screen Hoarding (Completed)

(I) Sources of Landscape Impact

Sources of impact during the construction phase would include:

- Road P2 construction;
- At-grade road formation and earthworks;
- Resurfacing;
- Roads for temporary traffic diversion.
- (II) Location, Design and Fixing Details of Hoarding

The location plan of the decorative screen hoarding for WDII under the Project is shown in Appendix V and the graphic panels for decorative

screen hoarding and its fixing details are shown in Appendix VI. The hoarding arrangement will be subject to change as works progress.

4 Control of Night-time Lighting (Completed)

The Night-time Lighting mentioned in Section 4 has made reference to the Guidelines on Industry Best Practices for External Lighting Installations issued by the Environment Bureau dated January 2012.

(I) Sources of Impact

Sources of impact in the night-time construction phase would include:

- Road P2 construction;
- At-grade road formation and earthworks;
- Resurfacing;
- Roads for temporary traffic diversion.

(II) Control Measures

• Any night-time work that needs to be conducted will be carefully planned to minimize the amount of external lighting that would be required;

• The use of equipment headlights / lighting will be first evaluated to determine sufficiency based on the task and to minimize the use of portable lighting devices;

• External lighting from plant and equipment will be switched off when not needed or after night-time works;

• Only essential lighting (e.g. lighting for safety and security) will be maintained at the acceptable level as required;

• Over-illumination of works areas will be avoided to minimize the possibility of light pollution;

• The lighting will be positioned and aimed to avoid overspill of light to outside the works areas being lit up

• External lighting from plant and equipment will be appropriately positioned, aimed or shielded so that illumination of nearby roads, if any, will not be adversely affected;

• Lighting will be directed towards work areas and away from neighboring properties;

• Proper siting of construction activities on the layout can reduce a potential lighting nuisance;

· Lighting will be switched off when it is not operationally required or

dimmed down when a high illumination level is not essential;

• In the event that the portable lighting devices be used, they will be orientated away from visual sensitive areas and used sparingly when required. The masts of the lighting will be kept at distances that would minimize the nuisance of light to the neighbouring community, while still providing a safe working environment for workers involved in the task; and • Use of vegetative and landscape buffers and other site and project elements will be adopted.

5 Implementation Programme, Maintenance and Management Schedule (Completed)

Item	Mitigation Measures	Location / Timing					
Landscape	Landscape works regarding tree	planting and shrub planting are					
Works	implemented according to the draw	rings in Appendix III.					
Decorative	Erection of Decorative Screen	Entire Works Areas and					
Screen	Hoarding	Throughout Construction Period					
Hoarding							
Night-time	Control of Night-time Lighting	Entire Works Areas and					
Lighting Throughout Construct							

(I) Implementation Programme

(II) Maintenance and Management Schedule

Item	Maintenance and Management Schedule							
Landscape	Maintenance works for tree planting and shrub planting are							
Works	implemented on a regular basis according to the horticultural year							
	plan in Appendix IV.							
Decorative	• Daily cleaning will be carried out to prevent accumulation of							
Screen	debris along the site boundary area and weekly inspection will be							
Hoarding	carried out to maintain the apparent quality of the decorative							
	screen hoarding; and							
	• If any damage is identified, repairing works will be carried out as							
	soon as possible for the affected decorative screen hoarding							
	panels.							
Night-time	• Designated site personnel will monitor the lighting impact during							
Lighting	night-time construction work; and							

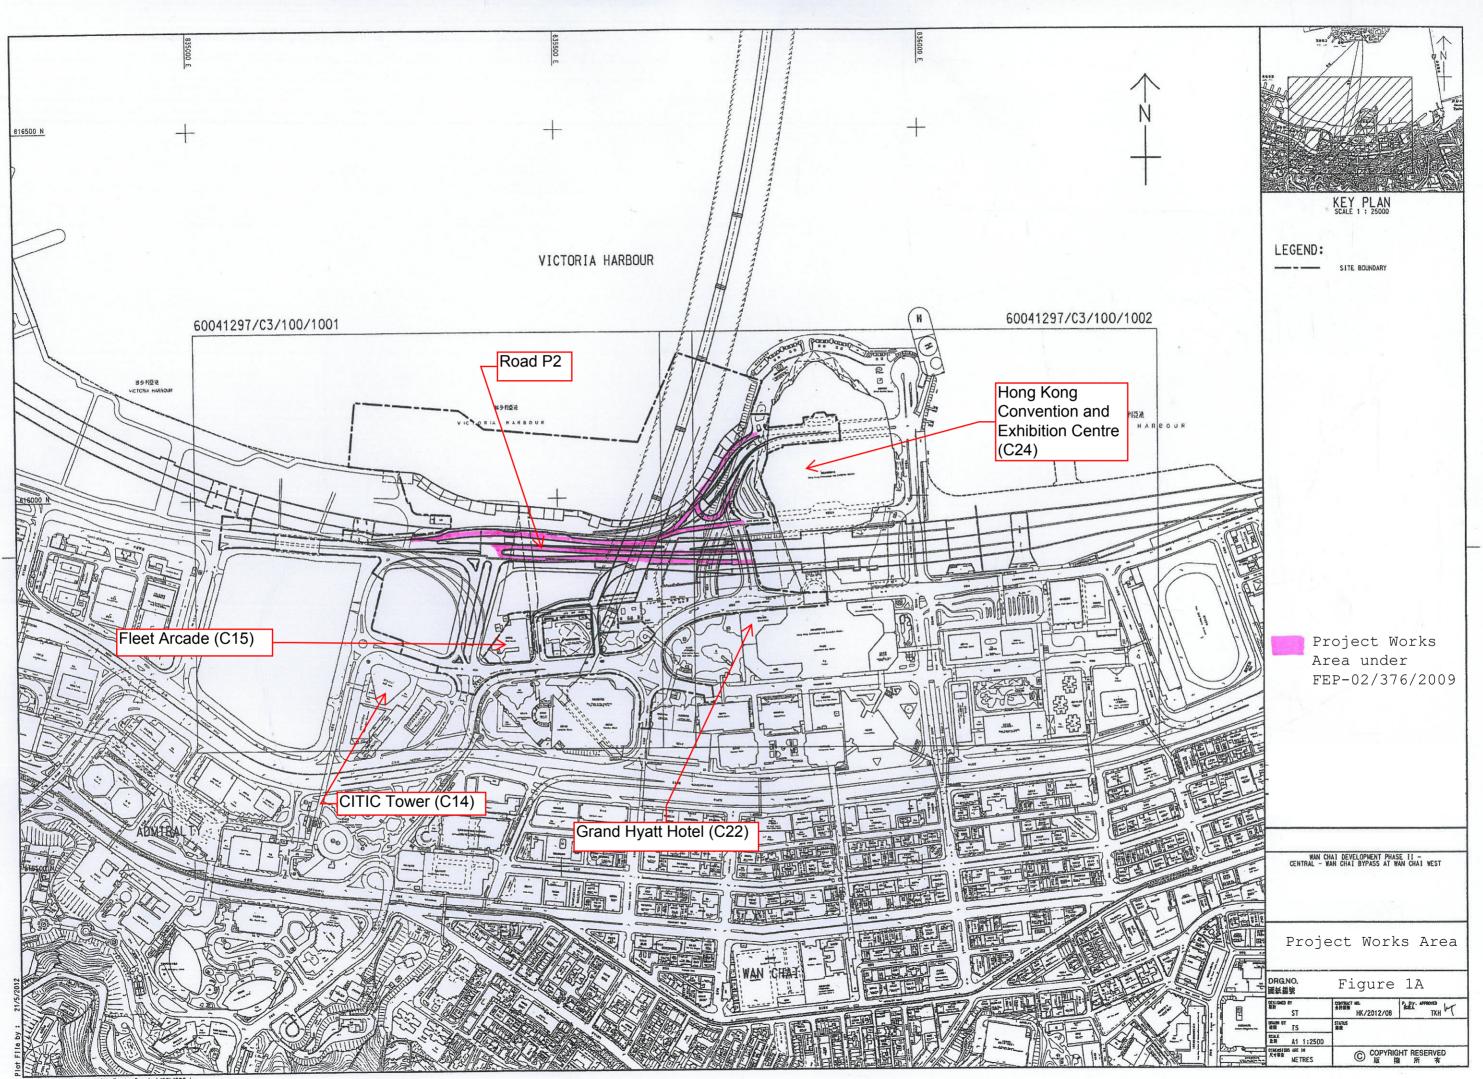

Item	Maintenance and Management Schedule									
	• Lighting devices will be repositioned, redirected, lowered or									
	shielded immediately if any public concern or complaint is									
	received.

Ms. Gloria Tang Chief Resident Engineer

AECOM Asia Co Ltd 9 Performing Arts Avenue, Admiralty, Hong Kong

Dear Madam,

Contract No.: HK/2012/08 Wan Chai Development Phase II -Central – Wan Chai Bypass at Wan Chai West

Tree Transplanting at Tree Nursery from Contract No. HK/2009/02

We refer to our previous letter ref. HK/2012/08/CDB/CA2/010153 and HK/2012/08/CDB/SA06.01.02/010220 dated 31 May 2019 and 26 June 2019 regarding the captioned subject.

Referring to joint site inspection among our landscape subcontractor and ITS at Planter between Road A2 and Road P2 eastbound on 23 September 2019, ITS reported that tree no. H08 was found dead after the tree transplanted to site.

Enclosed please find the tree report and form 2 which prepared by ITS for your information and record.

Yours faithfully, For and on behalf of China State – Build King Joint Venture

TREE INSPECTION REPORT

Contract No. HK/2012/08 Wan Chai Development Phase II Central – Wan Chai Bypass at Wan Chai West Transplanted Tree- H08 (C2)

Prepared by: Lois Poon (ISA Certified Arborist- HK-0075A)

Signature:

Inspection Date: 27 September 2019

1. Introduction

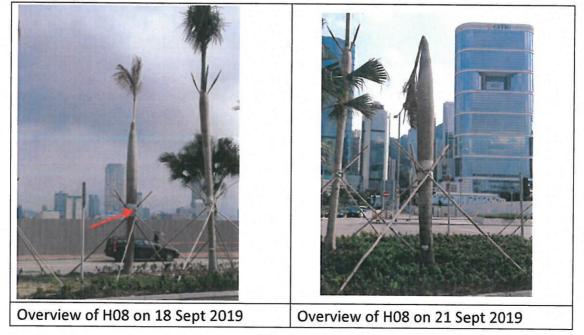

A transplanted trees, named H08 (C2) was observed dead during the site inspection on 21 September 2019. The general information of the tree is listed in the following table:

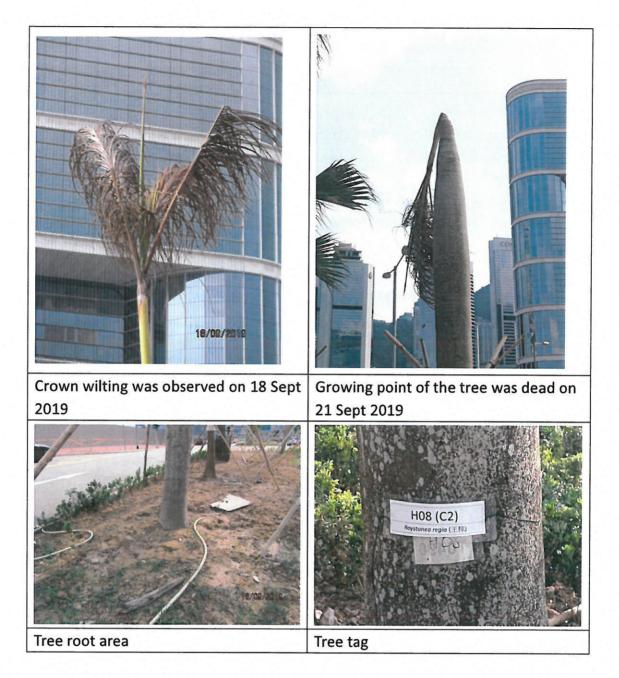

Tree ID	H08 (C2)
Tree Species	Roystonea regia 大王椰子
Diameter at Breast Height (DBH)	400mm
Overall Height	8
Average Crown Spread	2
Health condition	Dead

2. Site Location

3. Photographic record

4. Recommendation

During this inspection, this tree is obviously dead after transplanting within 1 month. Tree felling may require but it will subject to the condition of TPRP under this Contract. Compensatory planting may necessary considered. Detail assessment of this tree please refers to the Form 2 attached. Tree Management Information System (TMIS) 樹木管理資訊系統 Tree Risk Assessment Form 2 - Individual Tree 樹木風險評估表格2:個別樹木 Please enable macro before using this workbook 請於填寫表格前啟用戶集 (Please save this workbook as xls format)

Our Ref : HK/2012/08/CDB/CA2/010441 Your Ref : Date : **2 3 NOV 2019**

Ms. Gloria Tang Chief Resident Engineer

By Hand

AECOM Asia Co Ltd 9 Performing Arts Avenue, Admiralty, Hong Kong

Dear Madam,

Contract No.: HK/2012/08 Wan Chai Development Phase II Central – Wan Chai Bypass at Wan Chai West

Tree Transplanting at Tree Nursery from Contract No. HK/2009/02

We refer to our previous letter ref. HK/2012/08/CDB/CA2/010153, HK/2012/08/CDB/SA06.01.02/010220 and HK/2012/08/CDB/CA2/010387 dated 31 May 2019, 26 June 2019 and 30 September 2019 regarding the captioned subject.

Referring to joint site inspection among our landscape subcontractor and ITS at Planter between Road A2 and Road P2 eastbound on 21 November 2019, ITS reported that tree no. H28 was found dead after the tree transplanted to site.

Enclosed please find the tree report and form 2 which prepared by ITS for your information and record.

Yours faithfully, For and on behalf of China State – Build King Joint Venture

George Cheung Site Agent

TREE INSPECTION REPORT

Contract No. HK/2012/08 Wan Chai Development Phase II Central – Wan Chai Bypass at Wan Chai West

Transplanted Tree- H28 (C2)

Prepared by: Lois Poon (ISA Certified Arborist- HK-0075A)

Signature:

Inspection Date: 21 November 2019

1. Introduction

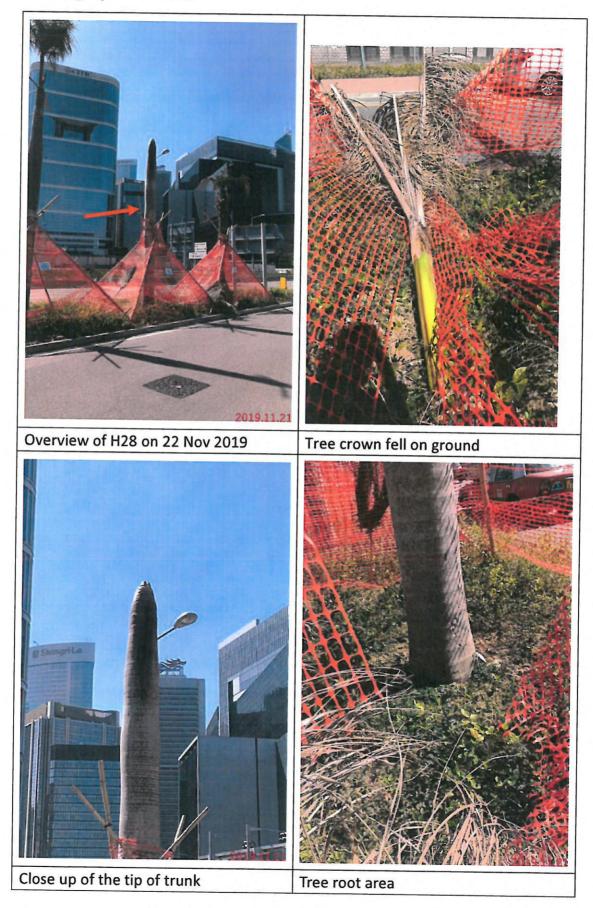

A transplanted tree, named H28 (C2) was observed dead during the site inspection on 21 November 2019. The general information of the tree is listed in the following table:

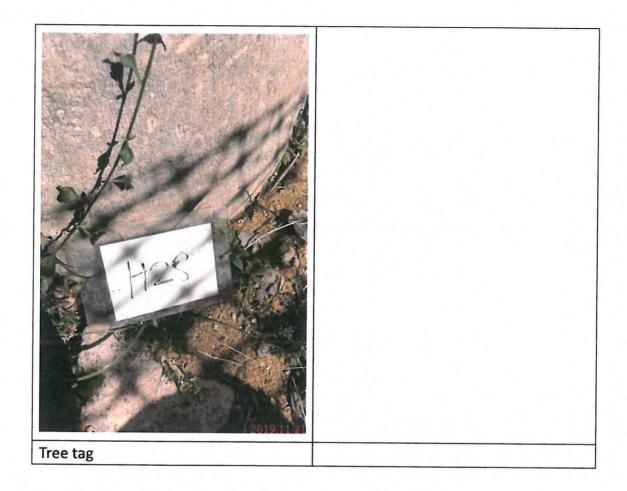

Tree ID	H28 (C2)
Tree Species	Roystonea regia 大王椰子
Diameter at Breast Height (DBH)	420mm
Overall Height	8
Average Crown Spread	0.1
Health condition	Dead

2. Site Location

3. Photographic record

4. Recommendation

During this inspection, it is observed that the tree crown was fell on ground. As the growing point of palm tree (at the tip of the trunk) was damaged, the tree is unlikely to recover.

Tree felling is recommended and compensatory planting may necessary considered under the condition of TPRP of this Contract, detail assessment of this tree please refers to the Form 2 attached. Tree Management Information System (TMIS) 樹木管理資訊系統 Tree Risk Assessment Form 2 - Individual Tree 樹木風險評估表格2:個別樹木

Dear Madam.

Contract No.: HK/2012/08 Wan Chai Development Phase II -Central - Wan Chai Bypass at Wan Chai West

Tree Transplanting at Tree Nursery from Contract No. HK/2009/02

We refer to our previous letter ref. HK/2012/08/CDB/CA2/010153, HK/2012/08/CDB/SA06.01.02/010220, HK/2012/08/CDB/CA2/010387 and HK/2012/08/CDB/CA2/010441 dated 31 May 2019, 26 June 2019, 30 September 2019 and 23 November 2019 respectively regarding the captioned subject.

Referring to joint site inspection among our landscape subcontractor and ITS at Main Site and tree nursery at Hok Tau on 10 December 2019, ITS reported that tree no. T462 was found dead after the tree transplanted to Hok Tau. Enclosed please find the letter which prepared by ITS for your information and record.

To facilitate the completion of tree planting works for the contract, we would like to proposed the compensatory trees for your approval, the compensatory tree size and species are listed as follow:-

Tree ID	Tree Species	Overall Height
H08	Roystonea regia (王棕)	6m
H28	Roystonea regia (王棕)	6m
T462	Phoenix hanceana (刺葵)	6m
T466	Phoenix hanceana (刺葵)	6m

Yours faithfully, For and on behalf of China State - Build King Joint Venture

George Cheung Site Agent

China State – Build King Joint Venture Contract HK/2012/08 Site Office Lung Wui Road Next to Fleet Arcade Admiralty, HK

Attn: Mr. George Cheung

Dear Sirs,

<u>Contract No.: HY/2012/08- Wan Chai Development Phase II</u> <u>Re: Trees in Holding Nursery at Hok Tau (3 Palm Trees)</u>

Refers to DLO's letter (ref. (54) in LD DLO/HE 704/EHGS/12 II) dated 3 December 2019, I hereby write to update the status of 3 palm trees which was reported "Poor" in previous tree report on 7 Aug 2019 as follow:-

Tree ID	Tree ID Species DB		Size (Ht x Spd)	Health condition	Status as of Dec 2019		
T462	Phoenix hanceana (刺葵)	300mm	5m x 0m	Dead	To be removed		
T464	Phoenix hanceana (刺葵)	320mm	5m x 1m	Health condition is acceptable and suitable for transplanting after applying pesticide	Transplanted from Hok Tau Nursery to receptive location		
T466	Phoenix hanceana (刺葵)	300mm	4m x 0m	Dead	To be removed		

Enclosed herewith the photo records of the above palm trees for your information. Compensatory planting is required to compensate tree loss.

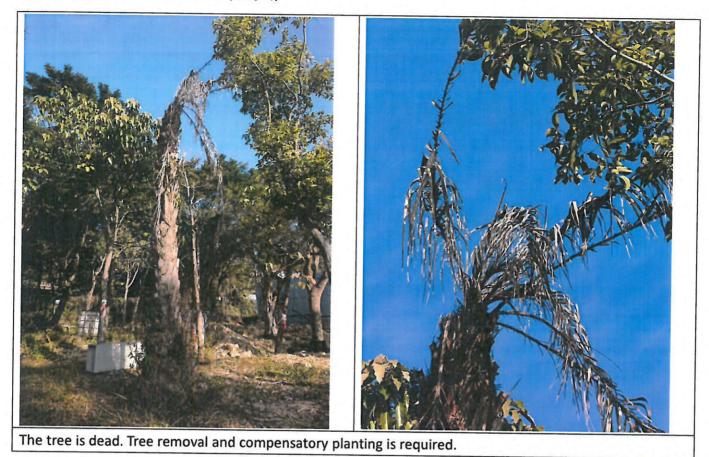

Your faithfully,

For and on behalf of Tree and Landscape Consultancy Ltd.

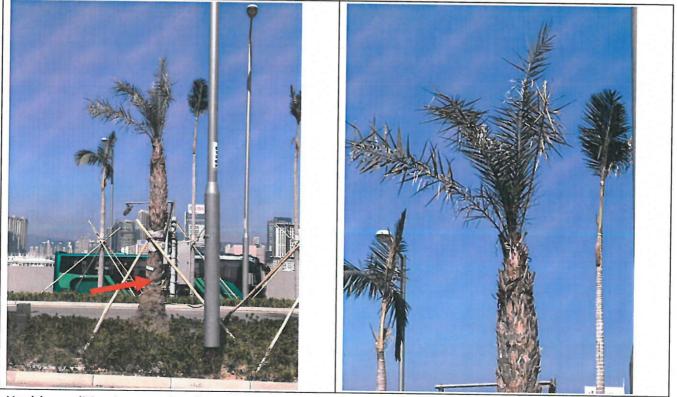

Lois Poon Independent Tree Specialist

Encl.

T462- Phoenix hanceana (刺葵)

T464-Phoenix hanceana (刺葵)

Health condition improved and was transplanted to receptive location

T466 -Phoenix hanceana (刺葵)

The tree is dead. Tree removal and compensatory planting is required.

The Agent China State – Leader Joint Venture 29/F, China Overseas Building 139 Hennessy Road Wan Chai Hong Kong

Dear Sir,

Contract No. HK/2012/08 Wan Chai Development Phase II – Central – Wan Chai Bypass at Wan Chai West

Arrangement of Compensatory Trees at C3 Nursery

According to your latest monthly report of transplanted trees in your holding nursery under your letter ref. HK/2012/08/CS1.01/06/007891 dated 18 June 2019, 35 nos. of tree are transplanted to your holding nursery and 7 of which were reported as dead in the nursery due to the reasons stated in the said report.

The remaining 28 nos. of trees at your nursery (i.e. 35 - 7) are reviewed by LCSD, who commented that the following 3 nos. of trees are required to be felled due to poor form:-

No.	Tree No.	Botanical Name	Chinese Common Name
1	T0604	Bombax ceiba	木棉
2	T0619	Melaleuca cajuputi subsp. cumingiana	白千層
3	T0620	Ficus virens	大葉榕

Thus, a total of 10 nos. of trees (i.e. 7 + 3) are required to be compensated by you at your own expense according to G.S. Clause 3.97 (3). These 10 nos. of compensatory trees are to be planted at the locations as shown in the enclosed Site Sketch No. 60041297/C3/SSK2548.

Your Ref : Our Ref : WDII/(HK/2012/08)/C35/700/R16789

The remaining 25 nos. transplanted trees (i.e. 28 - 3) being maintained at your nursery are to be transplanted to locations as stated in my prior letter ref. R16509 dated 25 April 2019.

Yours faithfully,

ŝ

Gloria Tang Engineer's Representative Chief Resident Engineer AECOM Asia Co. Ltd.
